Head: Prof. Achim Leutz
Coordinator: Dr. Oksana Seumenicht

MDC Berlin-Buch, Robert-Rössle-Straße 10, 13125 Berlin

Dear Sir/ Madam,

We would like to bring to attention of your MSc students our new call for outstanding PhD applicants to join our International PhD Programme in Molecular Cell Biology. This PhD Programme was established by the Max Delbrück Center for Molecular Medicine (MDC) and the Humboldt Universität zu Berlin (Germany).

We offer about **20 fully funded PhD positions** in one of more than **50 research groups** in key areas of basic and clinical research into **cardiovascular & metabolic diseases, cancer, neurobiology, and medical systems biology**. Our PhD Programme is run in English and provides excellent research opportunities to the university graduates, who are interested to obtain a PhD in the fields of

Cell Biology, Molecular Biology, Molecular Genetics, Molecular Cardiovascular Research, Cancer & Leukemia, Tumor Immunology, Epigenetics, Structural Biology, Proteomics, Bioinformatics, microRNA & RNAi, Genomics, Developmental Biology, & Neurobiology.

Application is open online: www.mdc-berlin.de/phd. Short-listed PhD candidates will be invited for an interview in Berlin at the end of March, with all costs covered by the Programme. After joining our International PhD Programme, PhD students receive interdisciplinary training in Molecular Cell Biology and Molecular Medicine, and can follow curricula of either 'Molecular Neurobiology' (MolNeuro) or 'Translational Cardiovascular Medicine' (TransCard) Research Schools. Our 200-member strong international PhD student community benefits from structured PhD training in a supportive environment, additional travel grants to attend conferences and courses, as well as annual PhD Retreats, soft skills courses and social activities.

Please, find our posters enclosed.

Please, do not hesitate to get in touch, if you are interested to learn more about our Graduate School, its PhD programmes or need any further information or additional material.

Sincerely yours,

Prof. Achim Leutz

Dr Oksana Seumenicht

10 PhD Positions in Molecular Neurobiology

Apply by 1st January 2010

www.mdc-berlin.de/MolNeuro

Max Delbrück Center For Molecular Medicine (MDC) | Freie Universität Berlin | Charité

Join us and enjoy: Participation in excellent and challenging research
Being embedded in our mentoring system
Partaking in lectures and seminar series
Development of soft skills
Being eligible for fellowships and travel grants

Accepting applications from mid-October
Application deadline: January 1st
